Henri Jääskeläinen
Country Manager of Nordcloud Poland

Henri is building Nordcloud's team & operations in Poland: helping to create a professional and relaxed working atmosphere whilst managing exponential growing growth and making sure Nordcloud is a big player in the local market. The Polish team are recruiting heavily, so Henri spends time supporting Nordcloud recruitment and interviewing potential Nordcloudians. He also meets regularly with local partners and plans together with the Nordcloud group how to ramp-up new operations and teams.

Having studied Computer Science at the University of Helsinki, Henri went on to develop his IT skills in software development, product management, start-ups and consultancy services. He has previously worked as a mediator between customers, technical consultants & R&D teams at companies such as Reaktor and Efecte Corp in Finland.
